

cable tie gun

Cable tie gun for **tightening and cutting plastic cable ties** in a single operation.

- The tightening force is infinitely adjustable.
- Cuts flush with the lock, thus avoiding sharp edges.
- Suitable for cable ties up to 4.8 mm wide.

Application

1. The tightening force can be adjusted by using the adjustment wheel. The adjustment strength from 1 to 3 (light – medium – strong) appears in the field of vision for checking.
2. Insert the cable tie that has already been tightened by hand with the ribbed side facing downwards.
3. Press the lever to tighten the cable tie and cut it off burr-free in the same operation.
